

## GE Law Services

Goddard Elliott Solicitors, Glen Waverley, Victoria, Australia

### Family Law

At GE Law Services our lawyers and staff recognise that going through a separation and negotiating the complex legal situations which can arise as a result, can be one of the most personally difficult and challenging times in one's life.

Whether our clients require assistance with a divorce, or a complicated financial settlement, we aim to assist them resolve outstanding disputes and achieve outcomes individually tailored to meet their specific needs.

All too often a separation results in a legal problem which involves, not only family law issues, but allied legal problems where disputes arise in companies and partnerships as a result of the separation, or trust or deceased estate issues arise. We assist our clients through the complicated intersections of such disputes.
