Welcome to Electric Motor Rewinds & Services

 Like Share 310

Electric Motor Rewinds & Services is backed by over 25 years' experience in the field and is set up to provide you with the service you need when your essential equipment breaks down, or is just not a'any more.

At Electric Motor Rewinds & Services we pride ourselves on providing you with a solid company that is renowned in the industry. We understand how vital it is to get your equipment up and running again when it has broken down. Depending on the nature of the repair required, we can supply you with a maintenance plan to prevent further issues.

We specialise in rewinding 2 phase & 3 phase motor units, motors, rewinding machinery, services, all motor and brands.

We can also undertake rewinds - whether by changing motor voltage, speed and frequency.
