Dear Peter,

We are writing to say how pleased with we are with the new French doors and retractable fly wire screen that were installed recently. They are both quality products and really do look terrific. They have provided a new vista to the rear of our property and have added to the enjoyment of looking out to our garden.

From the outset you were a very easy person to do business with. You are extremely knowledgeable regarding doors and their installation and came across to us a person whom we could both trust and rely upon. We also greatly appreciated the work done by Greg and his partner in installing the doors. Both are very skilled tradesmen and took a real pride in their work. The after installation service has been very good where you have been more than willing to ensure that we are satisfied with the work that was carried out.

We wish you and your company every success in the years to come.

Yours sincerely,

John I

Marilyn .
