DOMESTIC

24 HOURS  
7 DAYS

Welcome to Twin Electrics & Plumbing, the leading provider of electrical services and plumbing in Melbourne.

Established in 1978 as a family business, Twin Electrics & Plumbing has grown to become one of Victoria's most reliable and cost efficient electrical and plumbing contracting firms.

While we offer a wide range of services, Twin Electrics & Plumbing's major asset is our reliability.

The company is committed to this standard, and has developed an infrastructure to support its delivery including:

- On call 24 hours a day, 7 days a week
- Central point of contact for job co-ordination
- After hours diversion and access to company directors
- Mobile access to all service vans.

**We specialise in electrical installation and electrical maintenance and if you need an emergency electrician, look no further...**

**Contact us to learn more about our services.**

# Electrical

## Electrical Services and Electrical Maintenance

Whether wiring your home, undergoing an office refurbishment or for general electrical maintenance, Twin Electrics is the number one choice for customers from all over Melbourne.

We provide complete electrical services, including electrical installation, for a range of clients, large and small. We aim to provide quality, cost-effective and reliable services. Our team can cater for all your electrical needs, from fit-out to ongoing maintenance.

*With over 20 full-time qualified electrical technicians on-call, Twin Electrics provides complete electrical installation, emergency repair and on-going electrical maintenance for general lighting, power and machinery.*

# Plumbing

## Plumbing Services and Plumbing Maintenance

Twin Electrics & Plumbing is a member of the Master Plumbers Association. We are experts in providing plumbing services and dealing with any plumbing issues.

Services include but are not limited to regular property maintenance, comprehensive experience in general plumbing, maintenance including hot water repairs, burst pipes, blocked drains; roofing, roof repairs and inspections, drains cleared by cable machine or pressure jet, drain inspections by camera, pipe detection service. Industrial and domestic gas heating, cooking and hot water maintenance repairs.

*A gas leak is serious business. Gas explodes when exposed to flame or sparks, so if you detect that rotten egg smell, contact us for or any kind of emergency plumbing in Melbourne.*

# Data & Phone

## Not just plumbing and electrical services...

As an extension of our electrical services Twin Electrics & Plumbing can install new phone points for your home or office. We can install data points to link all your home computers to a central computer, printer or internet modem.

We will set up data points for network set ups in your office, linking central servers to multiple desktops to help with accounting programs, job dispatch systems and internet connections.

*While we offer a wide range of services, Twin Electrics & Plumbing's major asset is our reliability. Our customers receive a guarantee of efficient service; the knowledge that once their call has been received, a service team will respond within two hours (for the Melbourne Metropolitan area), for any emergency requirements.*

# Air Conditioning & Heating

## Air Conditioning and Heating Maintenance

As well as our electrical services and provision of plumbing in Melbourne, we also supply specialist tradesman who can carry out all types of air-conditioning and refrigeration repairs.

## Project Management / Office Refurbishment and Property Maintenance

Twin Electrics & Plumbing can manage a range of tradespeople and co-ordinate projects from start to finish. This involves obtaining quotes, allocating resources, scheduling and managing budgets for any size project.

We have a reliable and professional network of plumbers, carpenters, glaziers, builders, plasterers, painters and engineers who we can bring together to offer complete project management, all from one central contact point, to save you time and money.
