SUREGRIP
CERAMICS
TILES WITH STYLE

Natural Stone is a popular choice by Australian's when landscaping their property. It is eco-friendly and being a naturally derived product, it provides a stunning unique quality.

Stone is extremely dense and hard wearing, enabling its use in the most vigorous applications. Including:

- Alfresco Areas
- Pools/Spas
- Courtyards
- Pathways
- Steps
- Retaining Walls
- Feature Walls
- Built in Barbecues
- Outdoor Kitchens
- Water Features
- Seating
- and more

Think an organic bluestone stepper for the pathway to allow planting between the stones, a sawn surface paver externally to ensure a slip resistant finish, and then carry through the same size internally in a honed finished bluestone tile, connecting your inside to out. The options are endless.

When selecting Natural Stone for your landscaping, you can be confident you are making the right decision to achieve a quality result.

Love your space!

NATURAL STONE

Stone pool coping provides an excellent non-slip solution for around swimming pools. It's durability is second to none and will enhance any landscape with it's natural beauty.

POOL COPING TILES
