

## PIPE & UTILITY LOCATION

Aquatek Australia use only the latest electronic locating and tracing equipment specializing in Acoustic listening devices and other pipe/cable location equipment.

We use state of the art equipment and couple that with years of experience we can locate most underground utilities.

When you need further confirmation that there is no cable or pipe present from Dial Before You Dig Services, we will attend the site and will accurately locate:

[Telstra & Communications Cables](#)

[High Voltage and Low Voltage Power Lines](#)

Metal Pipes

Gas Main & Related Services

Sewer & Stormwater Pipes

Cable Faults & Shorts

Pre Pressed cables located in concrete

These can be pre-construction site scans.

So if you are involved in:

Pipeline

Large Sites such as School or Hospitals

Factories

Footpath Excavation

Concrete Cutting or Core Holes

Roadworks

Farms & Homes

Electrical

Trenching or other Excavation work

Please [Contact Us](#) to arrange for the appropriate scan before you commence construction, or to obtain a [free quote](#).
