

Good Choice

You are seeing a registered ASO Orthodontist

Australian Society
of Orthodontists

The Australian Society of Orthodontists (ASO) is the peak body for orthodontists and orthodontic knowledge across Australia.

ASO members:

- Must complete a rigorous process to become an ASO member and only qualified specialist orthodontists are eligible to apply;
- Complete a general dental degree, followed by an accredited three year full-time university degree in orthodontics;
- Are registered specialist orthodontists with the Dental Board of Australia;
- Are bound by a professional code of ethics and professional standards to ensure the highest standard of professional care for their patients;
- Have access to the latest advances and technologies in orthodontics to accurately diagnose and treat teeth and jaw alignment problems;
- Contribute significantly to ongoing research and education in the field of orthodontics.

ASO registered orthodontists have the training, experience and treatment options to give you the confidence you're in the best hands.
