TAMWORTH WATER

& WASTEWATER SOLUTIONS

At Tamworth Water & Wastewater Solutions
we provide expert advice and solutions for
all your water and wastewater needs.

We service all of Tamworth and the
surrounding areas, with over 10 years
experience in the wastewater and water
pumping industry.

You are sure to find the right solution with
us.

Call Adam today on 0417 098 484

LIQUID WASTE

- SEPTIC TANK CLEANING
- PERIODICAL GREASE TRAP CLEANING
- SEWER AND STORMWATER PUMP STATION CLEANING
- MOST OTHER NON-HAZARDOUS LIQUID WASTE

At Tamworth Water & Wastewater Solutions we take the responsibility off you and put it on us. We offer free scheduling – so we call you when your grease trap or septic tank is due for cleaning so that you can concentrate on doing what you know and we can concentrate on what we know!

PUMP STATION SERVICING & MAINTENANCE

Tamworth Water & Wastewater Solutions have extensive experience in sewer, stormwater and wastewater pump stations, including service, maintenance and repairs from domestic, commercial and municipal.

We offer periodical servicing and preventative maintenance to ensure your pump station operates efficiently and effectively when you need it.

As qualified tradespeople we can offer pump station upgrades including replacement pumps, pipework, valves, controllers, rails or any other failed components.

We are also confined space trained so if the need arises we can enter confined spaces under permit.

STOCK & DOMESTIC WATER SOLUTIONS

When it comes to stock and domestic water we understand the importance of having a reliable water reticulation system.

At Tamworth Water and Wastewater Solutions we can provide you with stock and domestic water solutions including design, sales, support and maintenance for all your bore, dam, river or creek pump needs. Whether it be electric, solar or diesel, we have you covered.

We have the capabilities of complete sales, design and installation packages to best suit your needs and your farm requirements.
