# Customer Reviews

---

*"Highly Recommend - the attending technician was very knowledgeable and promptly fixed my reception issues- at a very reasonable price!"*

- James Wong

---

*"We needed to upgrade our antenna and distribution system for a small hotel and also have 60 TV's mounted and tuned. They did the entire job within a few days and for a great price. Their supervisory technician Gavin, was great to work with and had an excellent knowledge of what was required. His workmanship was extremely neat and efficient. Arthur and his back office team are also really good to work with. they kept us well informed throughout the works and accommodated all our requirements. We would recommend them to anyone wanting efficient and professional work done."*

Ritesh Kumar (ICT Coordinator, Football NSW)

---

*"We had Michael come and install an antenna for our new home. Of all the tradies I've had to deal with, they were the only ones to keep me up to date and come on time. They are a diamond in the rough when all you want to do is enjoy your new house by relaxing and watching TV."*

- Jeff Grima

---

*"Gavin, Dawn and Arthur from Install My Antenna were truly professional in coordinating and installing our digital upgrade. This was a difficult job. There are 34 apartments in two separate 70s style buildings. They also had to contend with some residents who simply didn't want to be bothered."*

*So, top marks to the Install My Antenna team. I would recommend this company for any size job.*

- Ron Denholm (Chairperson, Brentwood Gardens)
