

WARRAGUL  
SKIN CANCER  
CLINIC

170 Normanby Street, Warragul Ph. 03 5622 3377 [www.centralclinic.com.au](http://www.centralclinic.com.au)

**SPOT CHECK** - Concerned about 1 or 2 spots? Book in for a single consultation with our skin doctors.

**SKIN CHECK** - an examination of the entire body where a dermatoscope is used to help doctors visualize and evaluate moles and other skin lesions that can't be seen by the naked eye.

**MAPPING** - includes a thorough Skin Check using dermcopy. Your body is photographed systematically from head-to-toe with the Fotofinder machine for mole comparison in the future.

**FURTHER TREATMENT** - If abnormal lesions are identified by your doctor, you may be advised to have cryotherapy with liquid nitrogen or possibly return for a biopsy/excision at Warragul Skin Cancer Clinic.
