TORINI GENERATORS

Pure Sine Wave

Torini uses a superior AVR* equipped with a Digital Stability Control Program. This allows voltage to be calculated and controlled at the outlet not the alternator. With Hi-Lo Limit Electronic Safety Shut Off this makes Torini one of the safest and advanced generators around.

WANT A BETTER TOOL?

**Metabo strives to bring you tools that outlast
and outperform other tools on the market.**

Metabo introduced its new
Brushless impact wrench
and believes it is the best tool
available in its class. The team at Metabo
are so sure that they challenge you to
compare their product to any other
impact wrench on the market – corded
or cordless!

Features of this tool:

- 400nm – Best in class rating for under 2kg
- 12 torque and speed levels – Accurate torque levels allow the product to be used in many different applications
- 1.9kg in weight – Average weight of a 600nm torque wrench is 3kg to 5kg
- 5.2 Ah battery – Still best in class

- One-handed operation due to weight = more control and less fatigue
- So if you are stripping down a car, building a house or constructing a bridge... want a better tool? You need a Metabo!
