

Perth to Kalgoorlie Return Daily

Sykes Transport has ideally located company owned transport depots in Perth and Kalgoorlie.

We run a number of road trains each weekday between Perth & Kalgoorlie which combined with our local delivery fleet of flat tops, utes and forklifts means that we can provide a consistent reliable daily delivery service for our Goldfields and city clients.

COMPANY PROFILE

General Freight Services

At Sykes Transport, our general transport services help you to move your freight anywhere within Western Australia and across interstate borders. Our complete transport package includes collection of your goods, transportation to our handling facilities and distribution, when and where required.

Our highly skilled team and extensive and diverse well maintained fleet enable us to offer a safe and reliable transport service for all our clients' needs, no matter how big, small, simple or complicated they may be.

"At Sykes Transport we pride ourselves on our unique ability to customize transport packages to suit our individual customer's needs, which is why many businesses in Western Australia choose us as their mainstay long term transport, storage and logistics supplier."

Weighbridge

Sykes Transport have fully licensed and certified public weighbridges at both our West Kalgoorlie and Perth depot's. Our weighbridges are suitable to meet all of your DOT requirements and are compliant with transport industry regulations for other transport providers. Our weighbridges are also triple platform for axle group weighings including multi combinations.

Storage & Distribution and Container Handling

With company owned warehouse & distribution facilities we can cater for all of your storage and distribution needs. We handle hundreds of sea containers per month from both wharf & rail, where we unpack, store and distribute various products.

We will work closely with your international shipping agent or use our existing network of shipping service providers to provide effortless end to end solutions from one carton up to 500 pallets and beyond.

Established 1959

Specialized Services

Sykes Transport has grown from humble beginnings in 1959 and transitioned to become Western Australia's premiere freight company. We offer a diverse range of logistical services right throughout Western Australia and beyond.

Our range of specialized transport services include:

- * **Dangerous Goods**
- * **Controlled Waste**
- * **Tanker & Chemical Transport**
- * **Storage & Distribution**
- * **Major Projects**
- * **Container handling, de-stuffing and wharf services**

Our Systems

Sykes Transport operates under its own robust third party certified business management systems. Every part of our operation is governed by procedure, thereby ensuring efficient and reliable transport services to all of our clients.

Our Depot's

Our Perth depot is located in the transport hub of Kewdale on over 13,000 square metres of land and is included in the main roads double road train route. It is equipped with modern and clean container handling and storage facilities, and provides safe and secure internal and external freight storage solutions.

Our Kalgoorlie depot acts as a distribution centre for major clients and consists of 9000 square meters of hardstand and 1200 square meters of undercover warehouse space. With "Street to Street" access it is ideally designed to take advantage of main roads triple road train route.

Our Fleet:

With a diverse and specialized fleet of prime movers, trailers, road train dollys, tray trucks, drop decks, extendables, pantechs, tautliners, side lifters and tankers we can cater for all of your transport requirements.
