

Welcome to Tree Arrangements PTY Ltd

Tree Arrangements' mission is to provide our clients with the quality service and advice anytime, anywhere.

Established in 1991, Tree Arrangements is a family business which has offered quality arborist services to the far north for the last 20 years. Tree Arrangements was originally founded and directed by John Madderom, accompanied by his daughter, Talitha Madderom.

Tree Arrangements was originally founded and directed by John Madderom, accompanied by his children. In early 2009 his daughter Talitha took over as director of Tree Arrangements still remaining a family business, she has continued to raise Tree Arrangements into the great success it is today with her wide areas of expertise, reliable team of workers and friendly, expert advice to all her clients. Tree Arrangements strongly commits to high quality work and a safe working environment, to ensure the safety of our personnel, clients and the public. Many years of experience and dedication to the tree care industry have helped us to achieve excellence in this profession.

Projects

Tree Arrangements PTY Ltd carries out the banners contract for the Cairns City Council. Tree Arrangements PTY Ltd has been given the CCTV cleaning contract for the Cairns City Council.

Tree Arrangements PTY Ltd was one of the main contractors involved in creating the Cairns Sky Rail Forestry Project.

Recycling Policy

Tree Arrangements has a proud environment and recycling policy. All green waste is recycled to many uses. Wood chip can either be left on site for customers to use as a mulch for their flowerbeds and borders, or taken away to local nurseries-raw material depots where it is sold to customers for landscaping purposes. Otherwise it is taken to our local depots where it is stored and processed with all other green waste into rich and sustainable compost used by organic farmers, nurseries, local council and landscape gardeners.

A selection of trunk lengths are carved with a chainsaw, into solid pieces of garden furniture or cut in suitable lengths and used for landscaping feature pieces. This can be done on site as part of the job or taken away and sold separately. Some timber is cut into lengths and then processed into timber suitable for furniture using a chainsaw mill. tree arrangements prides itself in recycling as much waste as possible and is constantly increasing its efforts to achieve 100% goal.

Health & Safety Policy

Tree Arrangements has a Safety Management System (SMS) and a fully trained workforce. Tree Arrangements can demonstrate the ability, commitment and resources to properly assess and effectively control risks associated with scope of contract work that may be awarded and can provide documentation to demonstrate competence, capability and organization / management systems to address health, safety, quality and environmental risk. It is Tree Arrangements policy to only allow personnel to undertake work, for which they have been trained, briefed and assessed as competent; all our operatives carry competencies in which they hold. All operatives undertaking forestry activities in order to improve competency, quality and reduce accidents. Tree

Arrangements ensures that they are trained to the required standards , all our operatives carry copies/cards as proof of occupational competence to support their competencies e.g. chain saw, climber aerial rescue, chipper, etc.

Tree Arrangements provide all its employees with all PPE and ready access to competent and current health and safety advice in a timely and consistent manner. We have arrangements in place to ensure we always provide access to competent health and safety advice to employees and suppliers, we have Safety Advisors /Consultants & Planners providing safety advice and producing Risk Assessments, RIMINI plans, Work Package Plans, Method Statements and all associated safety requirements and information; we ensure constant compliance with current statutory requirement, Industry compliance as well as meeting our clients safety expectations.

Tree Arrangements constantly reviews its SMS and training programmes as part of our objective in promoting continual improvements in all our operations / processes relating to work in our industry to ensure that performance of the SMS improves over time. Exceptional customer service, our good safety record, technical expertise coupled with value for money and extensive industry knowledge makes, Tree Arrangements the ideal choice for many clients in and outside our industry. equipment
