HOME (./) ABOUT US (ABOUT-US.PHP) PATROL SERVICES (PATROL-SERVICES.PHP) UNIGUARD (UNIGUARD.PHP) GPS TRACKING (GPS-TRACKING.PHP) ALARM SYSTEMS (ALARM-SYSTEMS.PHP)
CONTACT US (CONTACT-US.PHP)

All of our vehicles are fitted with Global Positioning Systems (GPS). This technology, along with the Uniguard patrol tracking system, allows us to strictly monitor and track our own performance, and it also enables us to show our customers that we are physically out there, paroling their sites and protecting their assets.

Geofence

A Geofence is a virtual barrier that we can draw around your site on our mapping software that will trigger an alert every time we visit your site. As soon as one of our vehicles crosses that virtual barrier or Geofence, an email can be automatically generated and sent to an address of your choice to advise you that we have visited your premises.
