At the client request to carry out a

FULL VISUAL TERMITE INSPECTION

to the Australian Standard AS 3660.2.

Areas Inspected Where Accessible:

- Roof Void
- Subfloor Area unless the building is on a concrete slab.
- Internal Timbers (Skirting boards, Door and Window Frames…)
- External Timbers up to 50 metres or to the boundaries of the property. (Fences, Garden Landscape Timbers, Retaining Walls…)
- Suspect Trees and Stumps.

Aids:

- Termatrac – Microwave detection unit.
- Moisture Meter

A typed visual termite inspection report that advises of all findings and recommendations will be forwarded once the account has been finalised.

Quotations for treatment will be supplied or forwarded to the client. Depending on what is found on site there may be various options available which include the full treatment to the Australian Standard.

If you require any further information please do not hesitate to contact us 9222 PEST (7378).
