

S5 SUCTION CLEANER

S5 Suction Pool Cleaner

- ✓ Two wheel design for quick and reliable cleaning
- ✓ Turbine design virtually eliminates blockages which can completely stop other suction cleaners
- ✓ Manoeuvres in and out of tight spots
- ✓ Can clean any pool and any surface
- ✓ Climbs and cleans walls
- ✓ Extremely easy to install

S5 Suction Pool Cleaner

AstralPool is pleased to release the S5 Suction Cleaner to minimise the time required to maintain and clean your pool.

The S5 Suction Cleaner has a compact, two-wheeled design that enables the cleaner to move quickly around your pool for a thorough clean. It easily handles sloping floors, and 90 degree floor to wall angles, even getting all the way to the water line. Due to it's compact design it will get into more tight spaces than virtually any other cleaner.

Ideal with Energy Efficient Pumps

The S5 Suction Cleaner has an efficient hydraulic design allowing it to run at lower flow rates making it an ideal match to energy efficient pumps. The lower the speed of the pump, the higher the energy savings.

Easy Installation

Included in the S5 Suction Cleaner is a clear flow valve that indicates the perfect flow rate for the best performance. Along with a 10m hose, universal plug and adaptors, the S5 Suction Cleaner can be easily set-up for your pool requirements.

Any Pool

The design of the S5 Suction Cleaner makes it suitable for any domestic pool up to 10m x 5m in size and for any interior finish type, including Concrete, Pebble, Tile, Vinyl and Fibreglass.

Warranty

The S5 Suction Cleaner is covered by a 2 year warranty against defects in materials and assembly. Refer to Product Instructions at AstralPool.com.au for full warranty details.
