

INSTALLATION OF KIT

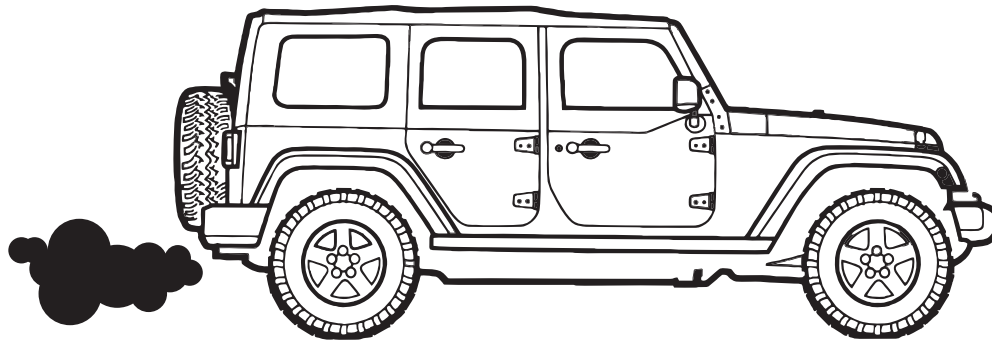

LOCATION OF PARTS

TESTING THE SYSTEM

When the Vehicle is running and the start battery is fully charged the VSR's indication light will be lit and the Starter Battery and the Auxiliary Battery Pack will both charge together.

If the Auxiliary Battery packs voltage rises when the engine is running your Installation has been successful.

AWESOME ACCESSORIES AVAILABLE FOR YOUR KICKASS BATTERY PACK

KEEP YOUR BATTERY PACK CHARGED WITH A 240 VOLT CHARGER

All of the wiring and gear you need to do the following.

Install the KickAss Pack in a Caravan/Trailer
Have the KickAss Pack in the back of the vehicle but also charge a battery in a Caravan/Trailer

BECOME SELF-SUFFICIENT WITH A KICKASS PORTABLE SOLAR PANEL

KickAss have a range of high quality Portable Solar Panels that connect easily to your KickAss Battery Pack.

Available in 100, 150, 200 And 300 Watts. Here is quick Guide to choosing the right size panel for your needs.

Just Led Lights and a bit of 12v TV = 100W Panel

If you want to run a 12V Fridge follow this guide:

- 0 - 60 Litres - 150 Watt Panel
- 60- 100 Litres - 200 Watt Panel

100 Litres and over or 2 x or more fridges - 300 Watt Panel

Notes:

- If you want to also run TV's, Sleep Apnea Machines or Lighting other than LED please go up to the next size panel.
- If you do not need the fridge to run 100% full time but just want to extend the run time Solar Sizes can be halved.
