

*Albury*

*Dear Greg,*

*I just wanted to thank you very much for the wonderful job Boss did in designing and installing our new kitchen. From the very beginning my husband and I were impressed with the work schedule you devised and adhered to throughout the construction of the kitchen. We were also very pleased with the package Boss offers, because we only had to deal with one team of suppliers and tradesmen. This service was of particular benefit for me, because my husband was away at the time the kitchen was installed. I found it easy to deal with the very professional, skilled and courteous tradesmen employed by Boss. Their attention to detail was excellent and this is reflected in the end result.*

*After a few weeks of using our new kitchen I am still finding more things that I like about the top quality appliances you supplied and the attractive and practical design of the kitchen. All of our visitors have commented on the striking Granite we selected from your samples.*

*Thankyou again for the quality service and the excellent value for money we have recieved from your company.*

*Kind Regards.*

*Lindy Handcastle.*
