

Heavy vehicle air conditioning problems solved!

Established in 1999 and with over 25 years experience Vehikool Automotive Air Conditioning has been helping small and large owners, operators and businesses to stay cool in summer and warm in winter.

Our highly trained service technicians are competent in all aspects of automotive air conditioning, electrical and mechanical installations, repairs and servicing. All our staff undergo continuous training in house, locally and interstate helping to keep them up to date with the latest equipment, products, techniques and vehicles.

Contractibility is the key to any successful service orientated business, Vehikool Automotive Air Conditioning can be contacted 24 / 7, calls outside normal office hours are answered by one of our service technicians or an Australian call centre. (calls made to a call centre are returned within 15 minutes)

Vehikool Automotive Air Conditioning is fully OH&S compliant, all staff have senior first aid certificates and our service technicians have construction industry standard White Cards along with inductions and site clearances to most major construction sites and large organisations.
