

Fibro Asbestos Re-Roof - Clontarf

When our roof (asbestos fibro) sustained damage from cyclone Debbie we found Sykes Roofing in the Yellow Pages and phoned them. This was the best thing we could have done. Sykes Roofing were prompt in giving us an easily understood quote and comprehensive supporting documentation to forward to our insurer. The matter was resolved quickly by our insurer and a new roof was approved. Sykes Roofing scheduled the work and took care of all of the approvals and notifications required for the removal of asbestos fibro. Sykes Roofing performed the work on time and to our complete satisfaction, and our yard was left clean and neat. All staff of Sykes Roofing were courteous, co-operative and very efficient. We have no hesitation in recommending Sykes Roofing.

P and M Zgrajewski

Fibro Asbestos Re-Roof - Kipparing

"From the quote stage to the eventual replacement of our asbestos roof the team at Sykes Roofing were very thorough and professional. They delivered all they said they would - quality products and first class workmanship. They were very understanding and co-operative when delays occurred due to problems with a solar hot water system being replaced at the same time. I have no hesitation in recommending their services."

P Fitzgerald

Metal Re-Roof at Sandgate on block of flats

I would have no hesitation in recommending your company. Your professionalism and quality skilled staff made it a dream job.

R Lingard

Metal Re-Roof at Bracken Ridge

Having suspected that our roof was in need of repair or replacement, we had separate inspections and quotes performed by different companies.

We accepted the quote by Mark of Sykes Roofing as it was the most detailed, best presented and fairly priced.

Five days later the job was started and finished on the one day by a professional team to our greatest satisfaction.

We would recommend this company to anyone requiring a roof renewal

Yours Sincerely,

Brian

Fibro Asbestos Re-Roof - Mitchelton

The entire process from quote through to completion was organised very well by Mark and his team. Very happy with the end result. Highly recommend Sykes Roofing if you are considering a brand new roof.

B Watts

Fibro Asbestos Re-Roof - Clontarf

We found Sykes quoting to be easy to follow. Installation quick. We had one minor issue but it was addressed same day. We are more than happy to recommend Sykes to potential clients.

Juan and Elissa

Fibro Asbestos Re-Roof - Margate

"Very happy with the job done by Sykes Roofing, great price, they turned up on time, the guys who did the job were friendly and helpful, got the job done quickly and to a high quality, I'm a carpenter myself and I have quite high standards, I couldn't fault the work done. Would recommend them to anyone"

T Stanley

Metal Re-Roof at Coorparoo

Thank you again for the great service we received on the replacement of our roof.

K Willis

Fibro Asbestos Re-Roof - Gordon Park

Thanks Mark. We are thrilled with the roof and we're so impressed with the work the boys did. They were very professional and did an amazing job to get it all done in one day :)

J Gannon

Metal Re-Roof at Sandgate

Marylyn and I would like to thank you for the way Sykes Roofing carried out the roof replacement on our home at Sandgate. From the time we rang and asked for a quote to do the job, through to the professional manner in the way the work was completed was so satisfying. In today's world, it is hard to have tradespeople return a phone call, but you were prompt and kept us well informed as to the progress of our job right through to the completion. If you have any potential clients looking for our recommendations, give them our details and we will gladly talk to them.

Thanks again,

T and M Byles.

Fibro Asbestos Re-Roof - Woody Point

Thank you for doing such a professional job we are very happy with the workers and workmanship, they were a nice bunch of blokes and very careful with my garden!!

Thanks Sue

Metal Re-Roof at Corinda

"From the moment I requested a quote until the project was finished Mark and his team made the experience seamless and without hassle. Sykes Roofing's safety system was flawless and followed to a tee. They did everything they said they were going to do and once finished, other than the beautiful new roof you would not have known they had been at our home.

Thank you Mark, Vikki and the team from Sykes Roofing, would highly recommend to everyone."

D Percy

Fibro Asbestos Re-Roof - Annerley

The whole process of dealing with Mark and the team from Sykes roofing was great! Mark turned up as promised, presented a professional quote with a complete explanation of work to be completed, made contact with our neighbour's regarding what was happening and how they would be completing the replacement of the fibro roof in a completely controlled process. The job was commenced on time and completed as promised on time as per quotation. I have no hesitation in recommending Mark and the team from Sykes Roofing for your next roofing job

P & B Corbett

Fibro Asbestos Re-Roof - Albany Creek

Sykes roofing carried out work at our house by removing the existing asbestos roof. Now we have a new Colorbond roof and insulation. Thanks guys for being quick, efficient and professional. Anyone seeking roofing work call Sykes Roofing.

B & J Devenny

Fibro Asbestos Re-Roof - Redcliffe

In February 2014 I asked Sykes Roofing for a quotation to re-roof our house in Scarborough. The quotation was professionally set out and offered options for material types and finishes. The quote was very competitive so we engaged Sykes Roofing for the job. The house was rented and because of my work commitments I asked Mark and Vikki if they would mind organising access with the real estate and tenant and Vikki kept me informed at all times. Access was organised and the job was completed on time and without a hitch and the work site was left clean and tidy. We would not hesitate to recommend Sykes Roofing.

K Wilson

Metal Re-Roof at Redcliffe

We used Sykes Roofing to replace the damaged roof and guttering on our parents place in Redcliffe. The company was great. They provided a very detailed quote, which had a better breakdown than the other quotes we obtained. We had 9 guys on site on the day of commencement and the roof was up in 48 hours. Just like we were told it would be. The boys also cleaned up their mess as they went and nothing was left behind for us to deal with. The end result was excellent and I would certainly use them again.

Dr Angela Phillips

Fibro Asbestos Re-Roof - Aspley

Sykes Roofing were fantastic. All the team arrived early, they were courteous and friendly. I couldn't believe how quickly and professionally the work was done leaving no mess. All went very smoothly. We were thrilled with the finish of the Color bond Roof and the gutter guard. My experience with Sykes Roofing, we would highly recommend to anyone. They provided an excellent service from beginning to end.

M Tong

Fibro Asbestos Re-Roof - Margate

We were really pleased with the work done to replace our old roof. The workmen were here on time, they brought all necessary tools with them (have had incidences of workmen 'forgetting' something). The work was done extremely quickly and efficiently and the area was cleared and tidied up when they left. It was good to see a local company. employing local people, having plenty of work.

R Cocker

Fibro Asbestos Re-Roof - Mount Gravett East

Sykes Roofing provided a professional and efficient service both with the removal of the existing asbestos roof and installation of the new Colorbond roof and insulation. Mark was flexible with the commencement date for the work and the interface with the building contractor was well managed. The insulation and whirlybirds have made a huge difference to the temperature inside the house and I would not hesitate to contract Sykes Roofing in the future.

F Eagleson

Fibro Asbestos Re-Roof - Margate

I engaged Sykes Roofing to change the asbestos roof on my home at Margate to a Zincalume roof with insulation. At the same time the roof on my carport was also replaced. I cannot speak highly enough about the service from Sykes Roofing. The job was completed in a timely manner, and I found Mark to be professional and courteous, from the first phone call and subsequent quote, to the finish of the job. I would not hesitate to recommend Sykes Roofing to anyone needing their services. Thanks again. Nice work!!

S Adams

Fibro Asbestos Re-Roof - St Lucia

1. Sykes Roofing were tremendous. They talked through our problems, advised us carefully and sensibly, made a good estimate of cost for replacing the roof and generally gave us very good advice while in now way pressuring us to re-roof.
2. Sykes Roofing chaps arrived on time, a team of courteous, friendly workers and we couldn't believe how quickly and professionally the work was done in a single day. No mess was left afterwards, and no drama occurred while the work was in progress.
3. We were told after the work was done that if there were any problems at all - which there have not been - to contact the firm immediately.
4. From our experience of Sykes Roofing, we would recommend anyone seeking roofing work done to contact this firm. We certainly would give Sykes Roofing 10 out of 10!

P Winter

Fibro Asbestos Re-Roof - Holland Park

"I would highly recommend Sykes roofing to anyone looking for a new colorbond roof. Being a new first home buyer and no experience in building or house restoration projects I felt very confident and comfortable with the Sykes team. They provided an excellent service right from the beginning by giving an accurate detailed quotation, assisted me in my colour choice and their fantastic service continued when it came to the 'big day' of replacing the roof. They appeared to be a happy team of efficient workers all with their specific roles in replacing the roof, all the work was completed in less than 48 hours. I am very happy with the end result and have even received numerous complements from strangers passing by on my street. I would describe the Sykes team as profession, honest, efficient and competitively priced. "

S Leung

Fibro Asbestos Re-Roof - Redcliffe

"We contracted Mark Sykes Roofing to do the roofing job on our daughters recently purchased house. It was a big job, a large, oddly shaped roof expanse, a steep pitch and old super 6 that had to be carefully removed and replaced with new colorbond. The workers had the old roof off, wrapped, vacuumed out and nests discarded (it was filthy), old battens replaced, and the new roof on in the first day. Amazing. I was so pleased with the quality and pace of work from these boys, and they always kept us informed. After we had finished renovating 2 months later, we gave Mark a call for one final checkover and he was only too pleased to come out. Thank you Mark Sykes Roofing. For an efficient and high quality job, I would certainly recommend them."

Toni

Metal Re-Roof at The Gap

Dear Mark and Team,

We want to say thank you for the job you have done and to let you know that we are very pleased with the quality of service your company provides. We sincerely appreciate the way you conduct business. The Quotation was well prepared; the job started on time and was completed in three days; all minor defects were promptly attended to; the site was left clean with all job rubbish removed. We have already recommended your company to others because of our satisfaction with your service.

Kind Regards,

Alina

Metal Re-Roof at Mitchelton

Sykes Roofing replaced our metal roof and gutters, installed roof insulation and vacuumed the entire ceiling space. We obtained several quotes and Sykes provided a very competitive price. A friend had a roof replaced earlier this year and two workers took over a week to complete a job that wasn't much bigger than ours. In contrast, Sykes allocated a large work crew to our job, they arrived on time, completed the job in just under a day and left it all clean and tidy. Mark Sykes was very professional, friendly and I was happy with his well-organised formal contract and work arrangements. I have already recommended Sykes Roofing to a neighbour who is planning to replace his roof.

Regards

Eddie

Metal Re-Roof at Taringa

We used Sykes Roofing to completely re-roof our Federation Qlder in Taringa. During the process there were unforeseen problems with rotten original beams on the verandahs and gable. Although the job took longer than expected (it was also raining a lot) the workmanship was excellent and we were informed along the way regarding the additional cost - which was very reasonable given the intricacy of the work involved to make it match up to the existing style of carpentry. We found the staff to be approachable, friendly and solution oriented when problems arose. We got the impression that they take pride in doing a good job.

Regards

Kate

All work guaranteed

I wanted to thank you for sending your men back to fix the cement on the top of the down pipe outlet. I've had the experience in the past, that when the job is paid for some companies just don't come back.

Thank you once again.

J Damm

Happy Customer - Northgate - November 2012

Just a quick thank you for the work you have done and the prompt response. I very much appreciated it. If you ever need a reference for another customer I am very happy to be of service.

Kind Regards

Rita von Rotz

Fibro Asbestos Re-Roof - Bongaree

We decided to replace our aging asbestos roof, but worried that it might be expensive and complicated. We received a quote from Sykes Roofing and went ahead. Our 2 bed cottage roof was completed that day. We returned to a new roof, perfect. The quality of life inside the house has improved so much with the new roof and insulation. The service was excellent. We are happy to recommend Sykes Roofing.

P. and D Nelson

Metal Roof Replacement - Margate

This is a note to express our appreciation of the high quality and timely work Sykes Roofing put into the replacement of our roof. As we live two and a half hours away it was reassuring to know that the job would be completed efficiently with competent tradesmen, as Mark was very easy to work with and kept us up to date on the progress of the job. My parents happened to be at the house while the roof was being replaced and they commented on how comfortable they felt while the workers were there. They repaired extra wood rot that they found and left the work site clean with no rubbish. We would not hesitate to recommend Sykes Roofing to anyone who is considering replacing their roof.

Regards

B and J Sellick

Metal Roof Replacement - Stafford

Dear Mark and team,

We wanted to express how impressed we were with the services provided by you and your team. After gathering several quotes we were very pleased with your no fuss approach and how easy it was to have you come and inspect our house. The job is fantastic and completed in such an amazingly short time. We will definitely recommend your company to anyone requiring any roofing work.

Thanks

J Gearing

Roof Replacement

Thank you for satisfactorily completing the re-roofing of the houses on our property at Margate. The removal of all that old asbestos roofing and replacement was indeed a daunting thought but having used your services last year for part of the job, we did not hesitate to call on you again. You and your large team carried out the work in a very courteous and professional manner with a minimum of fuss and stress to us. Thanks again Mark for your helpfulness throughout!

I & B Greenland

Roof Replacement -Sandgate

Very Happy with job and service. No stuffing around – just got in and got job done with minimal fuss. Site was left clean and tidy.

Regards

Chris Martin

Roof Replacement

Thanks Mark, We are very happy with our new roof. The team were very efficient, polite and did a great job of both putting in the new roof and cleaning up as they went along. The roof looks great and your quote was extremely competitive in price.
