

EXTERIOR COLOURS

TRENDY

METAL GLOW

GREAT outdoors

The exterior creates the first impression and sets the scene for the rest of your home. Streetscape and kerb appeal are important, but most of all we want you to be house proud, so pick a colour you are happy to come home to!

View the exterior of your house as a whole, as there are various elements of the house you need to consider – walls, eaves, doors, window frames, gutters, downpipes – but also other features such as fences, gates, letterboxes and driveways that help tie your home's exterior look together.

You can use colour to highlight architectural features or to create contrasts and layers. Try varying shades of the one colour, or for a bolder look, contrast lighter shades with darker tones.

If you really want to get a feel for how a colour will work, grab some Taubmans Sample Pots and test it out on a couple of different walls that have different lighting during the day so you can see how the colour looks and how it suits the surroundings.

COLOUR GUIDE

We've curated a selection of our most popular on-trend colours for exteriors to help you choose your perfect palette. Included in the range are COLORBOND® colours for a seamless colour story.

For trims and accents, check out our Whites & Neutrals colour card or jump online for our full range.

For a complete exterior look, check out our Front Door brochure for some further colour inspiration to complete your new look!
