

# Betta Tanks - installation & accessories in South Australia

## Installation

There's little point in offering first-class water tank and rainwater tank products without having a first-class installation team to provide expert advice and installation.

Betta Tanks will provide not only quality water tanks but also expert installation and custom tanks which we build on-site.

If you're looking for a water tank or water tank solutions in South Australia and in the Adelaide area, you can rely on us to install your rainwater harvesting system and rainwater tank in a prompt and reliable timeframe.

Our number one priority is to ensure a timely and hassle free water harvesting and tank installation program so you can start saving sooner.

We have thirty years of experience installing metal water tanks, galvanised tanks, slimline water tanks, poly water tanks and stainless steel water tanks. We have strong relationships with Colourbond and Bluescope brands and it is our mission to deliver a holistic solution from initial discussions to after-sales service to each and every customer.

Talk to Betta Tanks today about the water tanks for sale, the water tank sizes and the water tank rebate available to South Australians.
