

## Plumbing Tips

### Check your home for gas leaks and save lives!

Save the lives of your family and loved ones, and prevent accidents resulting from gas leaks in the home by booking a gas leak check up with us. Jim's Plumbers' are trained to detect and fix gas leaks in your home or office – making it a much safer place for you and those around you.

With the use of a manometer (an instrument used to detect pressure in gas lines), our plumbers can quickly diagnose if you have a gas leak on your premises.

We have had vast experience with gas leak detection and repair at customers' homes, some of which have been leaking for over FIVE YEARS... this cost the customer many dollars in wasted gas bills – and posed a considerable risk to them and their family. Don't let this happen to you!

---

By booking in a gas leak detection with Jim's Plumbing, lives could be saved. To book online throughout Australia<sup>^</sup> and save 10% on the labour cost, enter your details in the [Quick Booking](#) form – we have plumbers available 24 hours a day, 7 days a week within the hour for emergencies – alternatively phone 1300 133 509 and book for your gas check now.

---
