**CAR, 4WD/SUV &
VAN/LIGHT TRUCK
TYRE RANGE**

Printed March 2015

PASSENGER CAR TYRES

SF-686

Available for **13" - 16"** wheels

Features

- Enhanced compound
- 4 wide circumferential tread grooves
- Streamlined pattern design
- Optimised variable pitch tread design

Benefits

- Excellent grip on wet and dry roads
- Delivers excellent performance on wet roads
- Provides excellent water evacuation
- Superior comfort and quiet ride

4WD/SUV TYRES

HT-781

Available for **15" - 16"** wheels

Features

- 4 circumferential grooves and open shoulder slots
- High density sipes with silica compound
- Variable pitch pattern and optimised footprint design
- Solid centre ribs

Benefits

- Prevents aquaplaning with enhanced wet grip performance
- Delivers a smooth ride, lower noise and improved traction on dry and wet roads
- Superior comfort and quiet ride
- Provides steering stability and delivers a comfortable ride

VAN/LIGHT TRUCK TYRES

SF-01

Available for **12" 14" 15"** wheels

Features

- Reinforced structure composed of 2 steel belts and full nylon protector
- Zigzag vertical groove with continuous sipes
- Special abrasion-resistant tread compound
- Solid shoulder design with wide grooves and continuous sipes

Benefits

- Delivers extra puncture resistance and robust load bearing capacity
- Provides excellent wet and dry grip
- Provides enhanced mileage with reduced heat
- Provides responsive handling, even wear and excellent water evacuation

SF-886

Available for **15" - 19"** wheels

Features

- 4 wide circumferential grooves, lateral grooves with fine sipes and continuous block patterns on shoulder
- Jointless nylon band
- Variable pitch tread design
- Silica tread compound

Benefits

- Provides efficient water evacuation, outstanding wet performance and enhanced stability at high speed cornering
- Improved tread stiffness and uniformity and delivers high speed stability
- Superior comfort and quiet ride
- Provides better performance on wet surfaces and reduced rolling resistance

AT-781

Available for **15" - 17"** wheels

Features

- Special tread compound and wide footprint
- Block tread design with multiple sipes
- Open shoulder grooves
- Strong structure design

Benefits

- Enhanced tread life and delivers excellent braking on wet and dry roads
- Provides outstanding off-road traction
- Prevents aquaplaning with enhanced wet grip performance
- Provides reliability and durability

SF-02

Available for **15" - 16"** wheels

Features

- Reinforced structure composed of 2 steel belts and full nylon protector
- Zigzag vertical groove and horizontal groove arrangement with sipes
- Special abrasion resistant tread compound
- Open shoulder design with lugs

Benefits

- Delivers extra puncture resistance and robust load bearing capacity
- Provides excellent wet and dry grip
- Provides enhanced mileage with reduced heat
- Prevents aquaplaning and provides excellent wet grip performance
