

Testimonials

"I just wanted to write and thank you and all of the men that helped with our move. You were extremely accommodating with organizing the timing and move. On the day you supplied extra men and they were very polite, efficient and friendly. We would highly recommend your company and will definitely be using you again in the future".

Amy Giardini

"I wanted to take a moment to complement Alf and Mace on the excellent job moving our house. They were very courteous, professional and helpful. They came in surveyed our house and what needed to be moved and went straight to the task at hand.

Upon arrival at our new home they took a look at how the house was laid out and discussed the process of moving everything into the new place. My girlfriend was particularly impressed with Alf and Mace carrying our barbie through the house without it touching the hard wood floors.

Please give our thanks and gratitude to Alf and Mace and if in future we need to move again you can be sure we will ask for them specifically".

Scott Bushnell

"Your guys did a great job! Fast, efficient, careful, but most important, courteous and friendly. No hesitation in using you again or recommending you to others".

John

"Polite and friendly. Worked hard and then after I had paid, then said '*is everything in the right place, is there anything you want us to come back up and move for you?*'.
Will be moving again in 12 months, will have them back, no issues."

"I had to get some furniture moved at short notice. Hudson Removals were able to help. The service and price were excellent and I was extremely happy. Highly recommended."

"Used them on recommendation from someone else. Will definitely tell all my friends about them. Excellent service, friendly guys and so far we haven't found anything broken! They charge by the hour, but the guys were literally running the whole day. I can highly recommend them."
