AD-1683 Static Eliminator

- The AD 1683 generates positive and negative ions to eliminate static electricity, which is often the cause of inaccurate weighing.
- Ideal for treating your glassware, petri dishes, powders, samples,...
- Can be easily and safely installed because it requires no high-voltage wiring
- Compact and lightweight. Size without its U shaped stand:
112mm(L) × 92mm(W) × 40mm(H)
- No fan. No breeze is produced. Ideal for powder.
- Little or no reverse charge is induced by irradiated ions because of its excellent ion polarity balance
