

"To Andrew

Firstly, I'd like to thank you for the professional manner in which you & your staff have handled this matter.

It was more than reassuring to my parents as well as their family. To know they were in good hands.

There is no doubt that you will receive A LOT more work through this.

We will all be recommending your firm to many other people.

..... Dad has really appreciated your efforts.....

... Thanks for everything & we will be in contact again.

You have made one family very happy!"

(From Don)

"I was involved in a single motor vehicle accident on the 2nd November 2003, where I was a front seat passenger

I sustained serious injuries including the loss of my left leg at the knee, multiple fractures of my right leg a compressed skull fracture, brain injuries and a twisted pelvis.

As a result of these injuries, I engaged the services of Bell Lawyers and specifically Andrew Bell to act on my behalf to pursue a third party claim.

Andrew Bell is highly regarded in personal injury claim matters. He has a professional team who have been very helpful, thorough in the preparation of my claim so far as my present and future needs are concerned.

Andrew is able to communicate at my level and has always been available to satisfy my concerns regarding my claim and my future.

I would have no hesitation in recommending Bell Lawyers to anyone who is in a similar position to myself."
