

## Pre-employment medicals

How do you know whether your prospective employees are fit for the inherent tasks of their jobs?

**Our standard assessment includes:**

### Musculo-skeletal assessment

- Spinal, upper limb and lower limb joint assessment
- Strength and stability assessment
- Functional activity assessment

### Hearing assessment (audiogram)

- Testing undertaken from .5k-8k Hz
- Individual ear hearing loss percentage
- Binaural hearing loss percentage

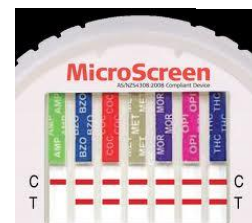

### Vision Assessment

- Visual Acuity
- Colourblind testing

### Drug and alcohol screening

- Test for presence of amphetamines, benzodiazapines, cocaine, methamphetamine, opiates and marijuana
- Temperature testing
- Adulteration testing
- Blood alcohol consumption

### Workplace Physiotherapy will provide your company with:

- Immediate appointments for your prospective and current employees
- Rapid processing of assessment findings with accurate results
- Same day reporting
- Comprehensive report detailing all assessment findings and recommendations
- Specifically tailored assessments to your workplace and employee roles
- Professional service that reflects your company image
