Inland Technology

Inland Technology are the regional specialists in business technologies. We are able to deliver a full suite of office technologies including managed print services, IT infrastructure management and document and workflow management.

Our objective is to ensure our clients have access to the same high standard of sales and service as businesses in metropolitan areas. In our industries, this means continuous investment in identifying and understanding new technologies, systems and processes that are relevant to our clients needs.

Managed Print Services

• One of Australia's largest regional suppliers of office automation equipment

• Currently servicing over 2,000 clients across an area of 330,000km^2

• Providing all photocopier, printer, scanner and fax requirements

• Managed Print Services allows clients to group all costs of fleet devices including all maintenance, servicing, toner and equipment supplies to produce an all up cost-per-print agreement
