# ABOUT US

Since 2001 Motobility, formally known as Bluesky Healthcare has been a leading provider of quality and stylish mobility solutions, dedicated to helping Australian's enjoy a better quality of life.

Our extensive range of custom-made mobility products are specifically designed and manufactured to help you overcome mobility challenges and maintain a healthy and balanced way of life.

# OUR MOBILITY SCOOTERS

## TRAVEL SCOOTERS

Folding mobility scooters, as the name suggests, are designed for travel. Depending on the model, a travel-scooter can be folded manually or automatically and usually weighs between 21kg to 28kg. As a general rule of thumb, most travel scooters come standard with a Plane-Safe lithium battery. Upon purchase, you will be supplied with an MSDS (Material Safety Data Sheet) Certificate, which outlines that the battery has been tested and deemed safe for travel on aeroplanes.

## PORTABLE SCOOTERS

Portable Mobility Scooters are very popular due to their versatility and for this reason, we stock a wide range of portable scooters from a variety of different manufacturers, with the largest model being able to carry up to 200kg in user weight.

These scooters are all designed to be transported in the boot of your car and are well suited for everyday errands such as shopping, doctors visits or around your local neighborhood. They are typically equipped with suspension and pneumatic tyres for a more comfortable ride on a variety of surfaces.

## MEDIUM SCOOTERS

One of the most popular scooter sizes, medium Scooters offer close to the same comfort as large scooters, and a wide range (up to 40km depending on the model) and weight capacity (up to 160kg depending on the model) to suit most needs. We stock both Kymco and Quingo Scooters in the Medium range and are sure you will find the most suitable model for your needs.

## LARGE SCOOTERS

Large scooters, are powerful scooters designed for outdoor use on various surfaces. With larger batteries, higher weight capacities and stronger motors, these scooters are well suited for longer trips, rougher terrain and heavier users.

## AUTOMATIC FOLDING MOBILITY SCOOTER

The Maleta V2 is packed with new innovative modern design features. The V2 sees the addition of a charging port on the dashboard, a remote control for folding, headlights, ambient deck lights and ergonomic horn shaped handle bars. It is safe, comfortable, easy to operate, convenient to be folded and carried, lightweight and steady. The frame is made of a lightweight aluminium alloy. It can be folded and unfolded without any tools or effort. It has 2 automatic folding functions and a manual safety fold override. A lightly padded seat and spring style backrest will provide you with support during journeys.

## PORTABLE PULL-APART MOBILITY SCOOTER

This Mini Comfort is a portable pull-apart scooter that features LED lighting, front and rear suspension and a narrow, lightweight frame. Thanks to its slim frame, front & rear suspension and padded seat, the Mini Comfort is well suited to both indoor and outdoor use on most surfaces. It can easily be dismantled into five easy to manage parts, which makes it ideal for transport in the boot of your car. It is also now available with a lithium battery option which helps reduce the overall weight.

## PORTABLE MOBILITY SCOOTER • PS3500

Back to due popular demand! The Pursuit carries the ultimate in features for any travel enthusiast. Its lightweight design and tight turning circle make it ideal for taller individuals, allowing it to remain agile and easily manoeuvrable. Each Pursuit has a drink bottle holder and two front basket options, that can be carried together or individually. Choose from a collapsible front basket or an insulated front pouch, or opt to place the front pouch into the front basket for the best out of two worlds. With solid puncture-proof tyres and bright LED headlights, you'll never have to worry about getting a flat or losing your way in the dark. With up to 15km of range per charge and speed of up to 6km/h you can easily travel long distances in a short amount of time.

## PORTABLE MOBILITY SCOOTER • PS4104

The SupaLite Four is the four-wheel version of the SupaLite (three-wheel) scooter. This Australian designed portable mobility scooter is incredibly light, with it's heaviest piece when taken apart weighing just 14.8kg. The short wheelbase on the front tyres offers a surprisingly tight turning circle and a padded seat, adjustable armrests and rear pneumatic tyres mean your ride is smoother and more comfortable.

## SUPALITE

PORTABLE MOBILITY  
SCOOTER • PS4100

\$4,350

The SupaScoota SupaLite is slightly larger than the MicroLite and comes with some additional safety features. The large tyres, great turning circle and padded seat make it well suited for use indoors and outdoors on well paved areas. For increased safety, this scooter automatically slows down when turning, minimising the risk of tipping.

## MICROLITE

PORTABLE MOBILITY  
SCOOTER • PS4080

\$4,150

The SupaScoota MicroLite is the smallest and lightest scooter in the SupaScoota travel range of mobility scooters. This 3-wheeled portable scooter is perfect for use indoors and in confined spaces, such as your local IGA. The tires are solid which means they can't be punctured. Folding down your MicroLite and taking it with you is as easy as can be.

# SWEETRICH CAPTAIN

PORTABLE MOBILITY SCOOTER • PS6240

\$2,400

The Sweetrich Captain offers a portable and easy to operate mobility scooter. This zippy model also features a handy USB charging port for your phone, a captain style seat with a headrest, cup holders and a front storage basket. When it's time to transport the Captain, simply remove the captain style seat, fold the tiller down and lift the scooter by the front handle and lean it on the lip of your boot. This leverage method of loading your scooter helps reduce the weight of lifting the scooter in half.

\$6,900

INNOVATIVE  
5-WHEEL DESIGN

LARGE  
COMFORTABLE SEAT

KERB CLIMBING  
TECHNOLOGY

# QUINGO PLUS

## 5 WHEEL MOBILITY SCOOTER

The Quingo Plus is an upgraded model of the Quingo classic, featuring everything we love about the Classic and the 5-wheel Quingo design plus additional comfort and usability features, such as high and low-speed selection, a broader range and a large adjustable captain seat. The Plus is classed as a medium-sized mobility scooter but can outperform many other large gophers. However, thanks to the 5-wheel design, it still allows for the same maneuverability that you are used to from smaller 4-wheel models.

# KYMCO MAXER

## MEDIUM SIZED MOBILITY SCOOTER

The Maxer is one of the largest scooters in our range and is made to tackle all conditions. Yet, its slim line design will allow you to easily navigate doorways and other entries, while the large 700W 4-pole motor offers enough power to navigate the more challenging terrains safely. The front & rear suspension makes it perfect for most outdoor use, and the 80Ah battery will allow it to travel up to 57km on a single charge. A fully adjustable, contoured captain style seat will provide the ultimate in comfort and versatility.

## SMART LIFTER LP

This easy to use portable/travel mobility scooter and wheelchair hoist by Autochair can lift up to 200kg. Using a 4-way crane lift, the hoist keeps a tight and secure handle on your scooter as it gently glides it from the ground into the boot of your car. With over 350 different installation plans, this hoist fits into a vast range of hatchbacks, 4x4's, MPV's, vans and station wagons.

125kg, 150kg and 200kg capacity options

Ideal for lifting wheelchairs and scooters

Fits 350 different types of vehicles

Very easy to use remote

Lift and load in under 60 seconds

# HOW THE SMART LIFTER WORKS

1 Attach the scooter or wheelchair using the easy to use attachment strap or carabiner hook.

2 Press the button to begin hoisting.

3 Gently guide your mini scooter or wheelchair as it lifts.

4 Ensure that your scooter is past the lip of your boot before disconnecting the hoist.

## OTHER EQUIPMENT AVAILABLE FROM MOTOBILITY

### STAIRLIFTS

A staircase should not stop anyone from continuing to live in their own home. Motobility is the local distributor of world-renowned Stannah Stairlifts in Australia; the safe, reliable and painless alternative to climbing the stairs. Stannah applies a simple design that provides easy operation from the seat mounted joystick or remote control. All stair lifts are fully installed and maintained by our trained technicians.

### MOBILITY SCOOTERS

Motobility offer an extensive range of travel scooters, portable scooters and large mobility scooters from the mobility industry's most reputable brands including Solax, Luggie, Supascoota, E-Traveller and more. Choose from lightweight automatic folding travel scooters, manual-folding scooters, large scooters and portable pull apart scooters.

### ADJUSTABLE BEDS

Motobility's electrically adjustable beds are engineered to provide comfort and relief. Our extensive range of beds combines the look and feel of a stylish ensemble with all the health benefits and convenience of an adjustable bed.

### LIFT AND RECLINE CHAIRS

Motobility's individually handcrafted Lift & Recline Chairs are made according to your seat size, leg length and the shape of your back with an ergonomic design featuring a full leg chaise to give you the utmost comfort while in a seated or reclined position, and a reliable motor assisting you as you rise from it.

## OUR SCOOTER BRANDS

Founded in 1964, KYMCO originally started out as a manufacturer for Honda. With the technical expertise that came from Honda, Kymco quickly became one of Honda's high-quality overseas manufacturing facilities. To further diversify and establish its presence in the marketplace, the KYMCO Group has branched out into the medical device industry, offering electrically operated vehicles such as mobility scooters and power-wheelchairs. Motobility has been awarded the national distributorship of the Kymco range in late 2016.

An innovative supplier of electric wheelchairs and scooters, the E-Traveller has been a leader in design and development. Located in China, the factory boasts one of the largest and newest production facilities, servicing the world with electric wheelchairs. Motobility has been awarded exclusive supplier of the E-Traveller 180, Ergo and Flex in Australia since late 2019.

Solax specialises in providing niche mobility scooters. The Mobie folding mobility scooter was first marketed in 2010 and Solax quickly built a large international company on the back of its lightweight design.

Solax continue to invest heavily in research and development. They now manufacture a range of different mobility solutions including an all-terrain mobility scooter.

Freerider has been manufacturing Mobility Scooters for over 20 years in Taiwan. Being one of the first companies in the industry, time has proven that experience, research and development go a long way in manufacturing a quality product.

Quingo Scooters have been available in Australia since early 2017, offering an innovative new 5-wheel approach to the traditional mobility scooters.

Quingo is best known for their safety features, postural control and their famous self-loading portable scooter, the Quingo Flyte. Motobility are the only official dealer for this product in Perth.

Sweetrich mobility scooters and powerchairs are the newest addition to our range. Sweetrich is known for its drive to push the boundaries in terms of new technology while maintaining a cost effective mobility option. We are proud to have obtained the exclusive rights to the Sweetrich brand in Australia.
