Transport Refrigeration

TMR *We Keep it Cool* THERMAL MARK

TM-500 Series by Thermal Mark is designed for fresh, frozen and deep frozen applications on large sized trucks.

The compressor is driven by the truck engine. Integrated 240v or 415v electric standby model available.

The TM-500 Series Offers you:

- ▶ **Optimum Performance** for superior cooling & less fuel consumption
- ▶ **High Capacity & Airflow** to ensure even temperature distribution
- ▶ **Exceptional Pull-Down Capacity** after regular door openings
- ▶ **Low Operating Noise** allowing unrestricted deliveries in residential areas
- ▶ **Intelligent & User Friendly** control system with digital in-cab display
- ▶ **Electric Standby** 240v or 415v 3 Phase
- ▶ **Afordable Reliability** knowing your unit will have a long life cycle at a small cost

TM-500 Series

Quality you can count on to get the job done

* Terms and conditions apply

TM-500 II Condenser Unit
Approx. weight 37kg

TM-500 ESC Condenser Unit
Approx. weight 133kg
Available in 415v or 240v

Cubic Evaporator 3 Fan
Approx. weight 31kg

Digital In-cab control box
with Auto Start function

Based on specific insulation factors
Available in 12v or 24v

Refrigeration Capacity at 38°C Ambient Temperature

Refrigerant Temperature		Road Operation TM-500 II	Electric Operation TM-500 ESC
R-404a	°C	BTU/h	BTU/h
	1.7	16,000	13,500
	-17.8	8,730	6,500
	-29	6,500	4,500
