

About

Henry Plant and Equipment Hire Pty Ltd is a family owned company based in Lithgow NSW servicing the Earthmoving, Heavy Haulage and Crane Hire industries nationwide. Drawing from over 60 years industry leading experience and employing a staff of motivated fully qualified people Henry Plant and Equipment has the capability and resources to service any of your project requirements large or small.

Being a family based company that has been involved with the growth of major industries over an extended number of years, we continually strive to build long standing business relationships to ensure our customers satisfaction. This is a standard that has risen from employing, training and maintaining a crew of staff that takes great pride in their work ensuring the customer is completely satisfied with any works carried out.

Our in house Project Managers are available at anytime to discuss, design or oversee any project that needs to be undertaken. Along with an extensive list of qualifications our Project Managers have a wealth of hands on experience gathered from years in the Earthmoving, Project Management, Conservation and Site Rehabilitation industries.

Henry Plant and Equipment Hire employ a Full time Qualified Workplace Health and Safety Manager to ensure your project is carried out to leading industry standards without incident.
