

# Ducted Refrigerated

## Ideal Applications

Superior airconditioning for discerning buyers. Suitable for uniquely designed single and multi storey dwellings

## Market Position

A market leader for nearly 30 years. A high quality product manufactured here in Australia for our extreme weather conditions.

## Unique Features

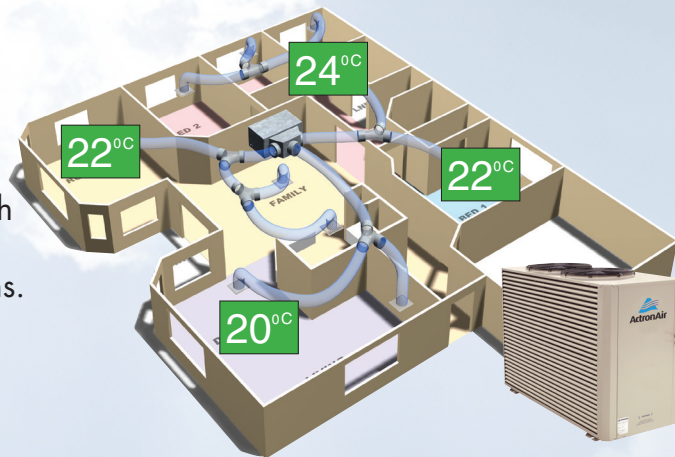

- Made in Australia
- 60% reduction in energy usage over other systems
- Micro computer controls up to 8 zones
- Only airconditioner capable of running on a single outlet
- Will operate to capacity even if outside temperature is 50c
- Coolworld Award Winner - Only air conditioning company ever to win for substantial energy reduction over other systems
- Individual Room Temperature Control (ESP Ultima)
- No third party zones or controls

## Features

- Top discharge compressor ideal for confined space installation
- Both Digital and Inverter variable compressor for maximum performance and low operating cost
- 5 Year parts and labour warranty
- 7 day programmable controller with 24 hour timer
- Sound reduction system
- Wifi operation available

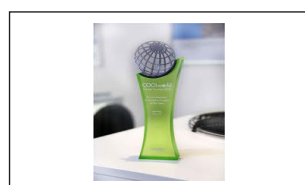

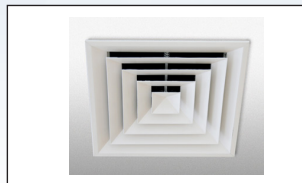

## Installation Detail

- A network of ductwork is installed in your roofspace cavity and connected to 6 to 20 ceiling outlets
