## What to do if I experience car breakdown?

- Find an emergency breakdown area/bay.
- Park the vehicle as far to the left-hand side as possible.
- Activate your hazard lights.
- Activate your parking lights if it is dark, raining or foggy.
- Leave the vehicle if it is safe to do so. When exiting the vehicle, ensure that you check for traffic
  - leave from the passenger side if possible
  - take your passengers with you
  - stand clear of the road and behind the roadside barrier (if safe to do so).
- If you remain in the vehicle, seat-belts should be fastened and, where possible, sit in the seats furthest from traffic.
- Call Perth CT Towing for assistance on your mobile phone by simply dialling 0408555477, if you don't have your mobile phone use a road side emergency phone if available.
- Avoid crossing the road.
- Do not work on the vehicle yourself – wait for roadside assistance.
- Follow roadside assistance instructions.
- In tunnels ensure you have your radio switched on – you will be given directions on what to do.
