18cm x 5cm

1 Pack

Shrink Wrap

Utility Rope

15m

Helpful Hints

Inspect your storage unit and make a list of the packing accessories which you will need.

Commonly used packing aids include such items as wrapping paper, bubble pack, tape, rope, drop cloths, polyurethane sheeting, mattress and furniture covers, pallets, skids, and cartons. Use all the space available, including the height. Disassemble items such as bed frames and tables. Place frequently used items near the front of the space.

Fill containers to capacity. Partially full of bulging cartons may tip or collapse. Heavy items such as books or tools should be packed in small boxes. If a carton is too heavy, it will be hard to lift. Fragile items should be cushioned by packing and placed toward the top of the unit. Label cartons and take home the list of the labelled cartons for easy reference when you need to locate your property.
