

PYRAMID SKYLIGHT

Regent Pyramid Skylights are a practical alternative to conventional skylights when architectural focus requires an angular perspective. Vented and non-vented models available.

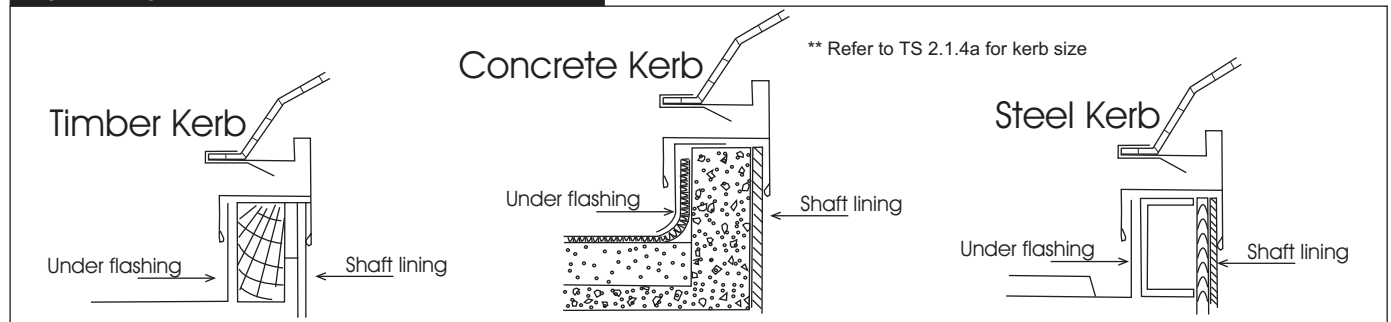

MATERIALS

Standard Pyramid Skylights consist of a kerb style fabricated Zinalume base and a high impact acrylic dome. Special bases are available (in stainless steel, aluminum, copper and galvanised) to meet individual customer requirements. Domes can also be manufactured from standard acrylic and polycarbonate, in clear, opal or tint finishes.
