GAME are industry leaders in equipment hire, traffic management and commercial grounds maintenance in regional Victoria and southern NSW. We have a deep commitment to our community and support programs that help thousands of youth in our area to stay in school, get opportunities for work and prepare for their future.

GAME TRAFFIC & CONTRACTING is highly visible across regional Victoria and NSW, due to their distinctive "Big Green Diamond", but what many don't know, is that GAME is recognised as one of Australia's leading, regionally based social enterprises.

Being a social enterprise means that GAME is able to offer their customers access to a quality, compliant, commercially competitive service, whilst also providing them an opportunity to be part of something much bigger...making a positive long term social impact, in the region and beyond!

Geared4Careers is GAME's flagship employment program which is fully funded through GAME's commercial activities.

The program is embedded in local secondary schools and is assisting youth, in the region, to remain engaged in school and transition to further education or employment.

Commencing in 2011, Geared4Careers now supports 1864 regional youth, from all backgrounds across 18 secondary school campuses.

Contact us for more information about how GAME can assist with social procurement targets on your next major project.

*I wanted to take a moment to express our gratitude for the excellent services you have provided us throughout the financial year 2024. We are very happy with the quality of your work and have found it very easy to deal with you and your planning team. Please convey our appreciation to all your crew for their support in delivering jobs in the Greater Hume region. We value our relationship with GAME, and I look forward to continuing our successful collaboration.*

- ◆ Temporary Fencing
- ◆ Experienced Management & Corporate Services team based across Regional Victoria

"Just a quick shout out & big thanks to your night shift team/ teams we had over the past 5 weeks of night shifts. Firstly, to your team leaders for their extra efforts on making the sites run safely & smoothly as they were by no means easy set-ups to control & manage. The rest of your crew also did a great job, listening & carrying out to what needed to do with no fuss & considering the freezing conditions. So, a big thanks and great effort by all."
