OPEN OUT OF HOURS

Your Dentist's Report

When we see you for an emergency we will always ensure your regular dentist is updated with all the information regarding your dental emergency, care and ongoing maintenance and treatment requirements.

If you have a regular dentist we will ensure that a comprehensive summary of:

- your presenting complaint
- diagnostic steps taken e.g. x-rays
- treatment undertaken
- follow up recommended and comments regarding prognosis are sent to them as swiftly as possible.

The Adelaide Emergency Dental team are experienced in providing extension emergency dental services and treatment for other dental surgeries in the event a dentist is unavailable (e.g. due to professional or after hour's commitments). Dental clinics interested in learning more regarding our timely, ethical and comprehensive extension after hours emergency services can contact us on: 0437 733 350 to further discuss our service offerings with you.
