ph: 1300 664 227**The staff of AB Vascular Ultrasound are specialists in their field.**

The sonographers at AB Vascular Ultrasound have undergone specific training in vascular ultrasound. They all work closely with the vascular surgeons ensuring the most accurate detail in all examinations. The sonographers and surgeons meet regularly to discuss patient cases and compare ultrasound findings with angiogram images.

Ruth Keech

After gaining qualifications and working in the fields of radiography and general/vascular ultrasound, Ruth specialised in vascular ultrasound, completing her Vascular Diploma in Medical Ultrasound in 1999. She has worked in private radiology practices and also in various public and private hospitals throughout her career and so brings a depth of experience to the practice.

Jenny Hunter

Jenny has worked in the field of vascular ultrasound for nearly twenty years. She trained at the Cardio Vascular Centre in Newcastle and was awarded the Diploma of Medical Ultrasonography (DMU-Vasc) in February 1999. She has specialised in phlebology work for over thirteen years and has been the dedicated sonographer for Hunter Vein Clinic since its inception in February 2006. She works closely with phlebologist Dr Naomi Hunter, and is involved with all stages of patient care, from initial mapping scans to treatment under ultrasound guidance and follow up regimes. She is a member of the Australasian Society for Ultrasound in Medicine, the Australasian Sonographer Accreditation Registry, and is an affiliate member of the Australasian College of Phlebology. Jenny has performed diagnostic venous ultrasound examinations on literally thousands of lower limbs and has assisted with over 500 endovenous laser procedures. She frequently participates in venous conferences and demonstrations, and in-house education sessions for general practitioners.

Angela Carruthers

Angela Carruthers has worked in the field of vascular health care for the past six years. Angela has 29 years nursing experience and has spent three years with the Hunter vein clinic, working closely with Dr. Naomi Hunter. Angela has now progressed to work as a vascular sonographer for Vascular Health Care performing diagnostic vascular ultrasound examinations and post-treatment vascular ultrasound examinations. Her vast nursing background compliments the complete care of patients during their vascular ultrasound examination.

Richard Rounsley

Richard Rounsley joined AB Vascular Ultrasound after 14 years in pathology. Starting his career as a trainee after completing the Higher School Certificate, Richard gained qualifications in pathology, a degree in medical science and in 2012 was awarded the Diploma of Medical Ultrasonography (DMU-Vasc). In addition he has a special interest in electronic health communication. Like all sonographers at AB Vascular Ultrasound, Richard works closely with the surgeons at Vascular Health Care in case reviews and continuing education.
