Note: An Exclusive Truck or sole use 20ft High Cube furniture container may be requested for a particular removal where the time frame from pick-up to delivery is greatly reduced. This rate will be more expensive but you will have more definite times of pick up and arrival times. The above times are based on back load rates which means your goods may be in transit with other removals in the same direction, for this reason our back loads rates are very competitive. If these transit times suit your move then please find the time (5-8 mins) to complete our comprehensive free quote form or simply call us during business hours.

Please contact us for all other interstate moving times.
