

Policy Statement

National Industries Pty Ltd is a manufacturer of all types of products including springs, wire & strip forms, pressed metal, turret punching, laser cut parts and brake press bending of sheet and plate.

At National Industries we are committed to:

- Following & improving our performance of the latest ISO quality, OHS & Environmental management systems.
- Continuously improving our management processes and methods through measurable objectives & targets that will achieve efficiencies and quality commensurate with market expectations, ensure continued improvement aimed at elimination of work-related injury & illness.
- Aim for always meeting customer expectations.
- Commit to maintain compliance with statutory & regulatory requirements as applicable to the products and services we supply to our customers.
- Maintain close relationships with our customers so we have a clear understanding of their needs and expectations.
- Maintain close relationship with our suppliers so they understand our needs and expectations and we understand theirs.
- Efficiently use our human & mechanical resources through training, planning and good management to minimise environmental pollution, impacts, waste & rejected goods.

Our ability to meet the goals & KPI's in this policy statement will be reviewed at Management Review meetings and if changes are needed these will be managed in a controlled manner and re-assessed in later meetings.
