#### IT'S EASY.

You don't jump through hoops to register like other termite warranties, simply say 'sure' - we'll do the hard work for you!

# HOW TO BE **ULTRA***Sure* YOUR HOME IS

## ASK YOUR PROFESSIONAL PEST MANAGER FOR **ULTRATHOR™** WATER- BASED TERMITICIDE

Australia's subterranean termites (often referred to as white ants) are the most destructive timber pests in the world. In fact it can take as little as 3 months for a termite colony to severely damage almost all the timber in your home.

**ULTRATHOR** provides fast elimination of the termites attacking your property together with highly effective, long-term residual termite control.

**ULTRATHOR** is non-repellent to termites. This means that they are totally unaware of its presence in the soil around your home. They continue their normal foraging activities through the soil, oblivious to the fact that it is slowly building up in their bodies, until it reaches a lethal dose... and no more termites!

## BE **SURE** YOUR HOME IS SAFE AND PROTECTED

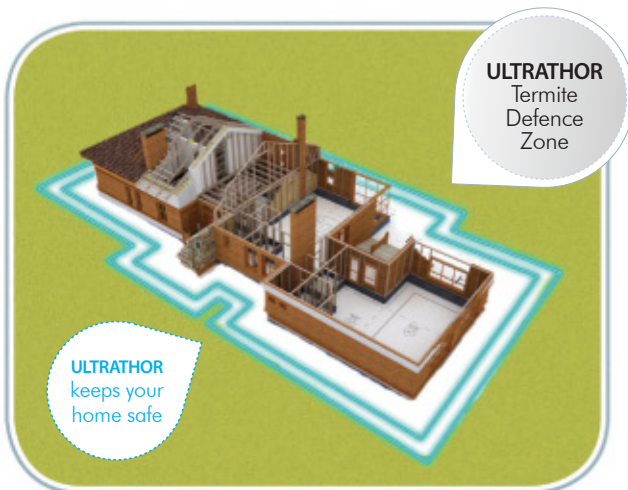

The thought of losing your home to termite damage is unthinkable, but it can and does happen.

Replacement of your single most valuable and precious asset would be costly, both financially and emotionally.

Take the uncertainty away and breathe easy knowing your home is securely protected by the **ULTRATHOR** Termite Defence Zone™.

Ensysnex offer this warranty with the knowledge and confidence that **ULTRATHOR** is a premium and highly effective product, tested and trusted to perform; and powered by fipronil.
