If you want to create a cottage garden feel, a rustic atmosphere, or a sense of permanence and history, you cannot go past a little touch of the magic that Claypave Cobble pavers provide.

Poolside? Lawn edges? Need to keep everything low? Rely on Claypave

Tuscan and Split ranges to give you a flat, even, stylish finish.

Tuscan is ideal for pool surrounds, assuring square edges, and the design flexibility of matching accessories like bullnoses and copers.

Splits are perfect for areas where you are restricted by height.

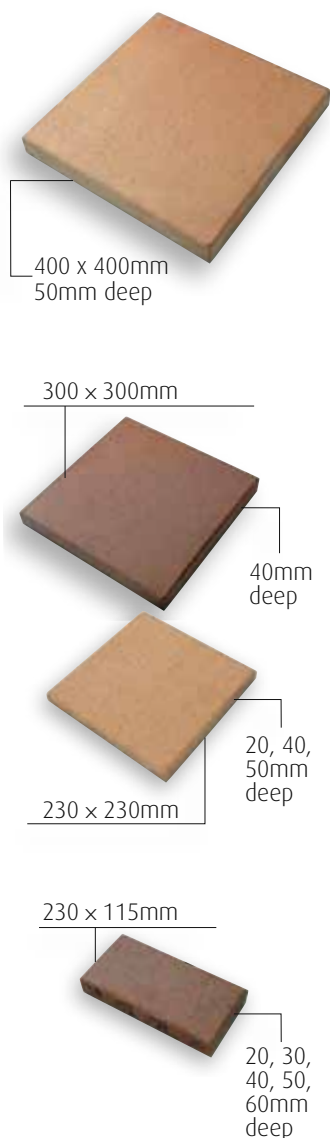

TYPES, SIZES, USES

Why clay pavers?

The warm natural colours of clay pavers are all the way through the material, not added as an artificial dye or pigment. Then we fire them in a kiln to lock it in! Which makes them strong and durable, too. They resist staining, are so low-maintenance they can be cleaned with detergent and water, and adjust better to underlying earth movement than poured-in-place concrete. It's also easy to replace a small section if stained or damaged. They are slip resistant and skid resistant, excellent for heavily trafficked wet areas, as well as walkways and driveways. You can expect quality clay pavers to hold firm and look good for generations.

Colours that last

Consistent, permanent colour. Kiln fired. Won't fade or change over time. Not affected by light.

Excellent slip resistance

Slip and skid resistant textured surface. Our clay pavers meet or exceed the Australian Standards for slip resistance.

Kiln fired for strength

Clay pavers are fired at over 1100°C. That's over four times hotter than a kitchen oven!

Salt safe

Clay pavers are suitable for use around salt-chlorinated pools and in saline environments.

CLAYPAVE

CLAY PAVERS

Naturally best.

Claypave pavers are among the world's best. We can boast a successful history dating back to the 1800s.

Claypave uses local clays, and fires with natural gas, so our pavers are gentle on the environment. The warm natural colours are exactly that — natural. There are no artificial colouring agents or dyes added. The colours are a result of the natural clay and the temperatures at which they are fired. They will never fade.

Claypave continually ensure that our large and varied range provides stylish, elegant and practical solutions to every situation. Our latest extension to the large format choice available is just another demonstration of this commitment.

Proudly Australian Claypave pavers are sought after by the world at large. We export to Japan, New Zealand, Pacific Islands, South East Asia, Middle East, Europe and the United States. Your Claypave project is in world class company!
