

## LAMONT LAWYERS

*Thank you for everything. Since the moment I was charged I was devastated. I didn't know what to do. Since that time I met you and that first time in court I knew that I couldn't do it alone. There's no way I could speak in public like that. I would definitely refer you to others in trouble.*

*My family and I are so happy with the result that you got my son. He would have lost his job if we didn't have you in court. Since the first time we spoke with you I knew that we were in safe hands. We just wanted our son to get the right legal advice so that he could get on with his life. Our family highly recommends the team at Lamont Law and if we ever needed a lawyer again, you would be our first option.*

*I am really thankful I had Alex Angel-Graham to help me navigate through a difficult personal legal case, the outcome of which could have had massive implications for my future. I could not have anticipated the intricacies of the legal system and processes that had to be sorted through, and Alex was invaluable in leading and guiding me through all that, including securing the assistance of legal counsel. Through their understanding, advice, preparations and advocacy at the courts I managed to secure the best possible legal outcome from my case – I am truly appreciative of their efforts and expertise.*
