

P.J Fitzpatrick

Painting & Decorating

Customer Testimonial

We approached P.J Fitzpatrick Painting and Decorating for a quote along with a couple of other painters and after weighing up our options we decided to have John paint our home.

John came over the week before starting work and helped us to choose colours for the entire house as well as a couple of feature walls. The result was outstanding!

John and his crew were courteous and professional, the work was done within a short amount of time with a great attention to detail. We were extremely happy with the colour choices and the painters workmanship, especially the striped entry and feature wall in the bedroom. Considering we were living in the house during this time we found the whole experience relatively painless with minimal disruption.

We would happily recommend John and his team to anyone wanting their home or business painted.

Thanks Peter and Natalie Joyce.
