

*Fast, reliable, professional and fuss-free*

## Plumbing

### Tapware & Bathroom

Jim's Plumbing is able to install all makes and models of taps. The extensive range of tapware that is available will cater for all types – from the luxury tapware customer to the more price conscious purchasers.

Our plumbers carry a basic range of bathroom taps, shower taps, basins taps, sink taps, laundry taps and bath taps in their vans at all times. However there is an extensive range of taps which can be viewed at Tradelink, Reece or Samios stores. Make your tapware selection through one of these outlets, then book a time in with Jims Plumbing for us to install them.

#### Tap Repairs

Should you encounter a leaking tap washer or your taps have become tight and difficult to turn on or off, Jim's Plumbing will have the right solution. Tapware repairs can be carried out on most makes and models. We use and recommend hydroseal tap washers on all tapware as they are far longer lasting. Jim's policy is we that we always reseal existing tapware resulting in a clean new surface for the new washer to seat on.

#### Mixer Taps

Each of our vans carry a basin mixer tap and a kitchen sink mixer tap, so replacement of your existing mixer tap can easily be done without having to attend our suppliers.

#### Bathrooms

Jim's Plumbing can also assist with various plumbing services relating to your bathroom. Not only can we install or repair your toilet or cistern, but we can also install your vanity, install your basin and all tapware, install baths, fix your leaking bathroom taps and outlets, repair leaking breachers (fittings behind the wall of your shower taps), replace showerheads and bath outlets – and fix any blocked drain within the bathroom! Just call us now to make a booking and we can help with your bathroom plumbing today!

We recommend Tradelink, Reece and Samios for tapware and bathroom plumbing supplies.
