

Australasian Centre of Chinese Studies

Why Study With Us At ACCS?

1 Does the school have a proven methodology and syllabus in teaching Chinese?

We use Accelerated Learning techniques and materials created by world leading expert, **Dr Moni Lai Storz**. This means that you will get a very effective and enjoyable learning experience with us.

Our **native-speaking** teachers are all from China and specially trained by us.

2 Has the school been around for a while or is it just another fly-by-night outfit?

ACCS has been the leading Chinese Centre for the past **20 years** in Melbourne! We started in Melbourne in 1992 and in Sydney in 2003. We have also been in London since 2005.

Our teaching faculty has over **30 teachers** – we are not dependent on only 1 or 2 teachers.

3 Do you need to spend more money on student textbooks and CDs?

We are extremely well-priced (around \$16 per hour for both Melbourne and Sydney classes for adult classes). This **includes GST, student textbooks and CD's** saving you at least another \$50! You can also pay your school fees using your credit card.

4 How much flexibility does the school offer you in terms of classes and availability?

We conduct multiple classes at most Levels giving you **maximum flexibility** in attendance. You can attend any available class each week or even repeat the same lesson, if you like. We seldom cancel classes due to insufficient students. Best of all, if you need to, we allow you to defer to the following Term for a nominal deferment fee of \$50. Enrolling is an easy process and you can cancel out at anytime before classes begin without any penalty.

5 How well known is the school?

We have classes in Perth, Sydney and Melbourne. Also, in London. Average class size is only **8 to 10 students**. You do not have to wait till the start of each calendar year to start classes with us. All our classes commences at the start of each Term including Beginners classes and there are 4 Terms per year. You can attend classes in Melbourne, Sydney, Perth or London if you happen to be travelling.

6 How comprehensive is the school's teaching materials and it's syllabus?

We have a **complete curriculum** in Mandarin ranging from Absolute Beginner to Advanced Conversation levels. **A total of 20 levels!**

Learn Chinese writing and conversation using a developmental but highly practical approach where students can focus only on conversation skills, if they choose to.

Australasian Centre of Chinese Studies

7 Does the school provide any other learning benefits?

We have a social club, regular events (eg 'InTune with Chinese') and a regular newsletter, Blog and Facebook with over **650 fans**! We also have a comprehensive set of **online study tools**. If you like, we can also provide you with an Achievement Certificate.

8 Does the school specialise in teaching just one language or many different languages?

At ACCS, we **specialise** in teaching Chinese language (Mandarin and Cantonese) studies and nothing else. For both adults and teenagers. We are continually incorporating the latest Chinese vocabulary and improving on our Accelerated Learning techniques. Most of all, our Chinese classes are **fun and interesting** - we do not give tests and we do not teach from standard boring textbooks!

This is the first time I have found a system of learning behind the seemingly incomprehensible, non-alphabetical language. **Dr. David Chong**

I'd just like to let you know how happy I've been with the ACCS course. I've tried a few different self-study approaches to learning Chinese and it just didn't happen. The ACCS course has really helped and I'm enjoying myself as I go. **Geoff Wilson**

Just wanted to update you with how we are going with our courses, we're loving it and learning so much!! We love the way that the characters tell a story! It really sticks in our head!!! **Miriam**

I have learnt and recognised quite a number of characters since the course and my conversation level is definitely on the improve. **Annie Chew**

I have enjoyed the classes and found the story telling, the music and the native speakers to be most useful. The suggestive element helped memorisation and motivation. **Ian Davidson**

I am enjoying the classes immensely! Very interesting, and it's much more fun than what I did at university! **Cleo**
