High Speed Network Ready Colour Laser Multifunction Printer with Automatic Duplex

The DCP-9055CDN is a robust, high performance colour printer, copier and scanner in one multifunction unit. Feature packed with low running costs, the DCP-9055CDN is the perfect choice for busy offices.

- Versatile all-in-one colour laser printer, copier and scanner.
- Fast and efficient time saving printing at speeds of up to 24 pages per minute (ppm) in both colour and mono.
- Save paper and produce professional colour documents with automatic double-sided (duplex) printing.
- Save on hardware costs by sharing your machine between multiple users on the network.
- Standard toner cartridge inbox and optional super high-yield toners for an even lower cost per page.
- Environmentally and budget friendly low power consumption, ENERGY STAR certified.

Be more productive in the office with the DCP-9055CDN's impressive range of cost and time saving features.

Reduce print costs further with the optional Super High Yield Toner cartridges

Cost savings

Share resources. Sharing an all-in-one among several users makes your office more efficient and reduces clutter. As well as allowing your workgroup to print to the shared device, the DCP-9055CDN also supports network scanning, allowing users to scan direct to network folders and FTP sites

Super-low power consumption. The DCP-9055CDN's ENERGY STAR approved, class-leading low TEC (Typical Electrical Consumption) of only 1.76kWh will help to reduce your energy bills.

Access and usage control. Brother's unique Secure Function Lock enables you to restrict users' access to certain functions such as colour printing and copying. You can also set monthly print volume allowances for staff in order to control your costs.

Save paper and use less toner. Reduce 2, 4, 9, 16 or 25 pages onto just one A4 sheet with N-up printing. Reduce print costs further by using the Toner Save feature.

Save time

Super Efficient. Thanks to the impressive print speed of up to 24 pages per minute in both colour and mono, the DCP-9055CDN will deliver fast professional results time after time.

Quick and Easy. Configuring and using the DCP-9055CDN is simple thanks to the backlit 5-line LCD screen. An intuitive control panel means you will be familiar with the frequently used features in no time.

Create professional reports. Print easy-to-read, professional colour documents in A5 booklet format automatically by simply choosing the booklet feature in the driver.

Manage and share your documents. Creating digital copies of paper based reports is easy with the powerful Scan-to-Network and Scan-to-FTP features. The 35 sheet Automatic Document Feeder means that multipage expense reports, invoices and correspondence can be scanned quickly and easily and shared with the rest of the workgroup instantly from a network drive or FTP site.

Be in control. There are two simple to use systems for managing your network printers, Web Based Management and/or BRAdmin Professional***. Both allow you to easily change settings and configure device status alerts without leaving your desk. Web Based Management allows configuration through your web browser so there's no need to install software. BRAdmin Professional*** is perfect for a large suite of machines spread across multiple locations, saving you the time of having to physically visit a printer. As a result, you get less printer downtime and more staff productivity.

Expandable. If your business grows, so too can the DCP-9055CDN. The standard 250-sheet paper tray can be further enhanced by adding the optional 500-sheet lower tray taking the maximum paper input to 800-sheets.

Safe and secure

Be safe. Print your most confidential documents, safe in the knowledge that they will remain just that, with Brother's Secure Print feature. It's incredibly easy to use: when you're ready to print your document, you enter a private PIN code on your computer, then click the print button. The document will print only after you've physically entered your PIN code at the printer.

Secure Socket Layer (SSL) Encryption. Although documents are sent from computer to printer within seconds, this is long enough for the information to be hacked. SSL prevents this by encrypting the data you send over the network, ensuring confidential reports remain just that.

Print on envelopes and thicker media using the multi-purpose tray

Copy multi-page documents quickly and easily with the automatic document feeder

DCP-9055CDN

DCP-9055CDN High Speed Network Ready Colour Laser Multifunction Printer with Automatic Duplex

A robust, high speed multifunction printer, the DCP-9055CDN offers a combination of features that will enhance your productivity as well as helping you to reduce costs.

A combination that makes perfect business sense: the DCP-9055CDN offers exceedingly fast, efficient colour and mono print speeds of up to 24 pages per minute.
