KEYS 2 DRIVE

Australian Government

What is *keys2drive*?

keys2drive is the single largest national Learner driver safety program in Australia's history. The program has been developed by the Australian Automobile Association (AAA) and its members; NRMA, RACV, RACQ, RACWA, RAASA, RACT and AANT. The Australian Government has committed \$17 million over five years to implement *keys2drive* nationally

Why *keys2drive*?

We know that Learner drivers are the safest drivers on the road, but the moment they gain their P plates and begin to drive solo – their risk of serious injury or death jumps dramatically (20 – 30 times).

How does *keys2drive* work?

keys2drive offers a free lesson to Learner drivers (delivered by a *keys2drive* Accredited Driving Instructor) when they are accompanied by their regular supervising driver (normally mum or dad).

keys2drive aims to reduce the crash risk during the first 6 months of solo P Plate driving. We do this by helping learner drivers gain the mental skills they need to stay safe on the road once on P's. *keys2drive* uses a new learning approach called "Find Your Own Way" to help prepare learners for the realities of solo P Plate driving. The *keys2drive* lesson offers advice to Supervisors and Learners on the best way to achieve safer P Plate drivers and lifelong safe driving habits.

keys2drive fosters the relationship between the supervisors, learner and the *keys2drive* accredited professional driving Instructor for the entire learning to drive journey.

keys2drive has three key components:

- 1 'free lesson' by a *keys2drive* accredited professional driving instructor for Learner drivers when they are accompanied by their supervisor (usually mum or dad).
- 2 Website – registration, information and supporting material.
- 3 Voluntary accreditation scheme for professional driving instructors wishing to participate in the program – includes initial training, ongoing professional development and commitment to a *keys2drive* code of practice developed in consultation with the driver training industry.

Registration for learner drivers, supervisors and driving instructors is available at www.keys2drive.com.au
